

LET'S COMPARE

< bathroom >

CLEANERS

INSIDE THE conventional PRODUCT

conventional bathroom cleaner contains

OCTYL DECYL DIMETHYL AMMONIUM CHLORIDE
DIOCTYL DIMETHYL AMMONIUM CHLORIDE
DIDECYL DIMETHYL AMMONIUM CHLORIDE

these chemicals cause

heightened risk of fire
severe skin burns
eye damage, including blindness
headaches, dizziness, and drowsiness
gastrointestinal irritation
nausea, vomiting, and diarrhea
severe respiratory tract irritation
asthma
reproductive concerns
neural tube development defects
organ damage

WHY PURE MATTERS

Each touch, towel, and breath is impacted – for better or for worse – by what we have put on surfaces and released into the air. Choose wisely.

INSIDE THE pure & superior SOLUTION
